MURPHY WOOD KITCHENS

New, colorful beauty, in Murphy quality at moderate cost

INTO this newest line of Murphy Kitchens has been built new style fitting into the modern home, new convenience for the modern housewife . . . and built to a new standard of quality for wood kitchens.

Kiln dried lumber is used. Doors are five-ply panels, banded on all four sides to minimize the possibilities of warping.

The finish is four coats of enamel, perfectly sanded between coats and resulting in a smooth, lasting finish. Almost any color combination may be had.

Hardware is chrome finished brass in ultra modern design. This vertically set hardware, semi-concealed, combines with flush panel doors to produce a smartness in style in step with the most advanced mode of home decoration.

And the outstanding feature is the wide-shouldered Murphy Combination Sink and Drainboard, of porcelain enameled cast iron, in all standard colors and in 5-feet, 6-feet and 7-feet sizes.

The hinged grille below the sink is of modern design. The bread box is of porcelain enamel. Mouldings are modern. You'll find *style* in every visible detail and quality clear through to the wall.

And yet this new kitchen assembly, in all its charm, may be had at no greater cost than the homely wood kitchen of the past.

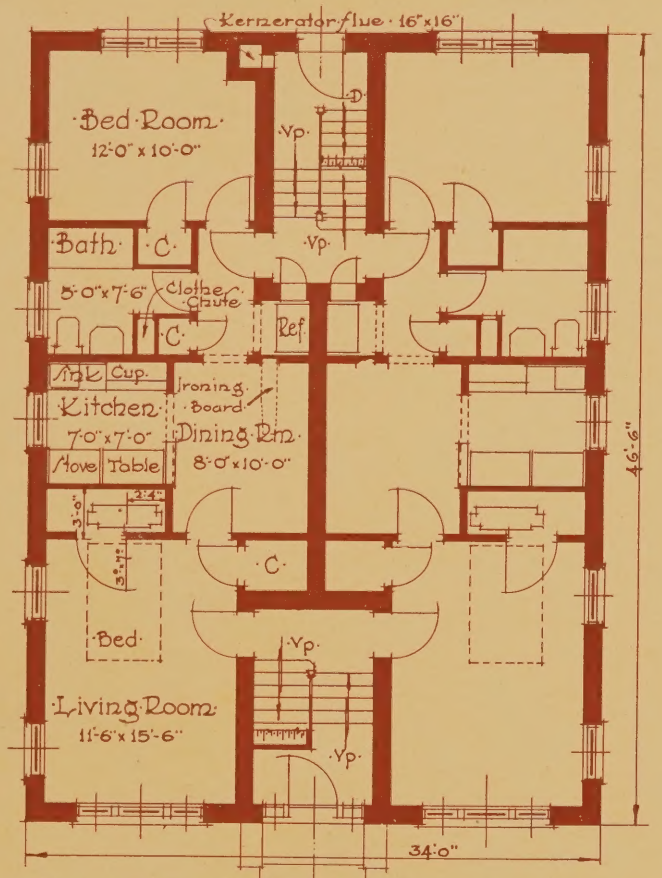
DIMENSIONAL DETAILS SHOWN ON THE BACK OF THIS SHEET

Send us your kitchen measurements. We'll send layout suggestions.

MURPHY DOOR BED COMPANY

Murphy Door Bed Co.
Executive Office
315 North Tenth Street
ST. LOUIS, MO.

NEW YORK

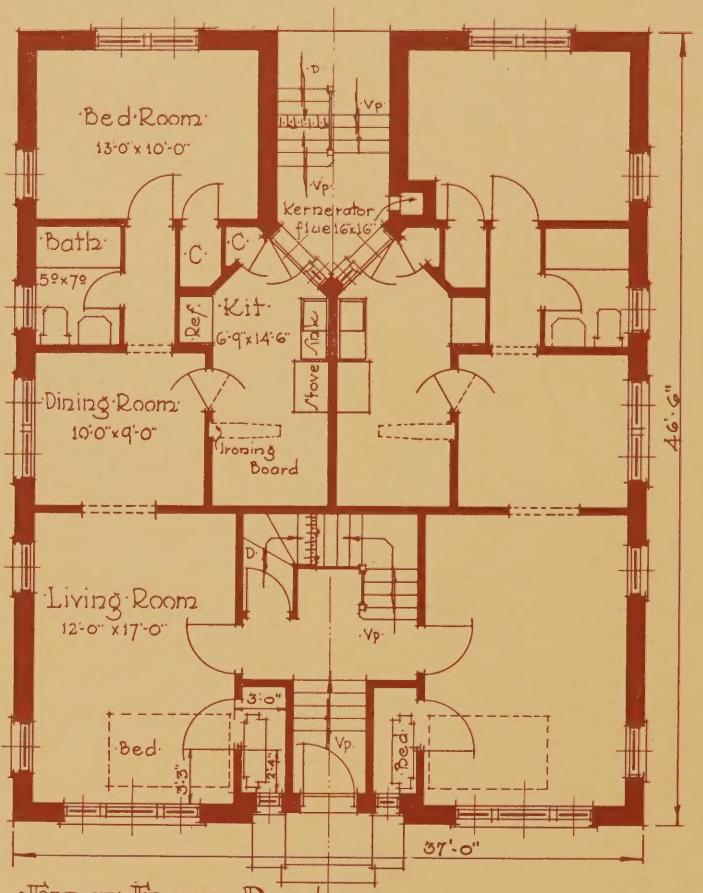


FIRST FLOOR PLAN

Second & Third Similar

F·201

F. 201. Building size—34'-0" x 46'-6". Suitable for narrow inside lot. Note the dining room-kitchen arrangement—economical from a builder's standpoint, and both practical and labor-saving to the tenant. The *Murphy Bed* converts each living room into a desirable sleeping room at night.



FIRST FLOOR PLAN

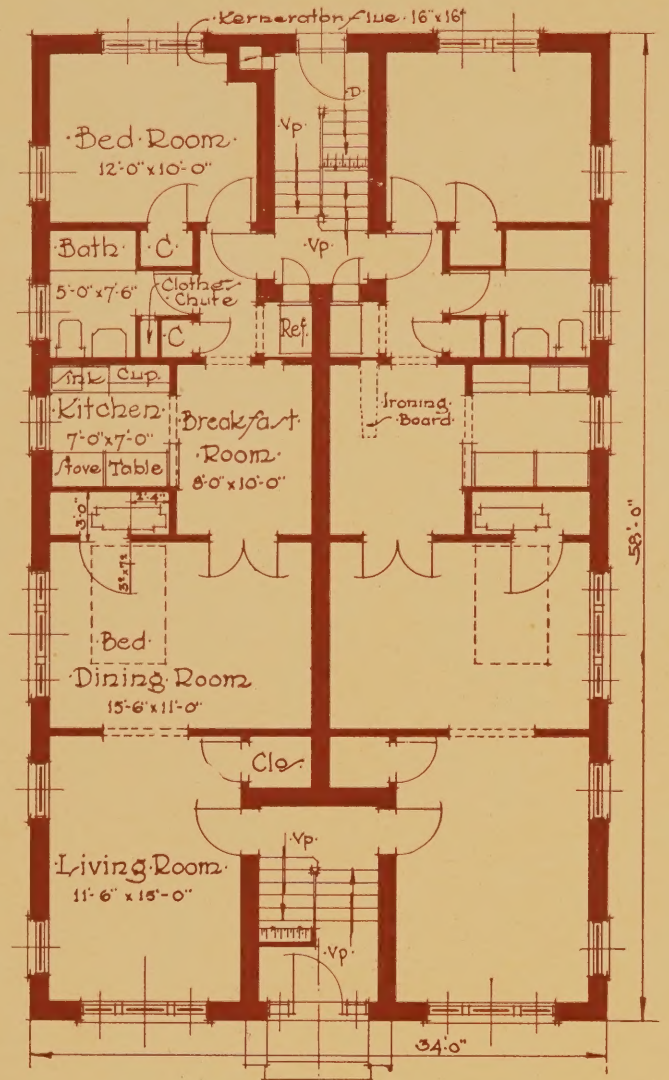
Second & Third Similar

F·248

F. 248. Note the different arrangement of kitchen and dining room as compared with F. 201. The entrance and stairway arrangement makes possible spacious dressing closets above the first floor. The *Murphy Bed* in living room gives each apartment a five-room efficiency.

MURPHY DOOR BED CO.
ST. LOUIS
Kansas City Dallas
Houston

AVERY LIBRARY
COLUMBIA UNIVERSITY

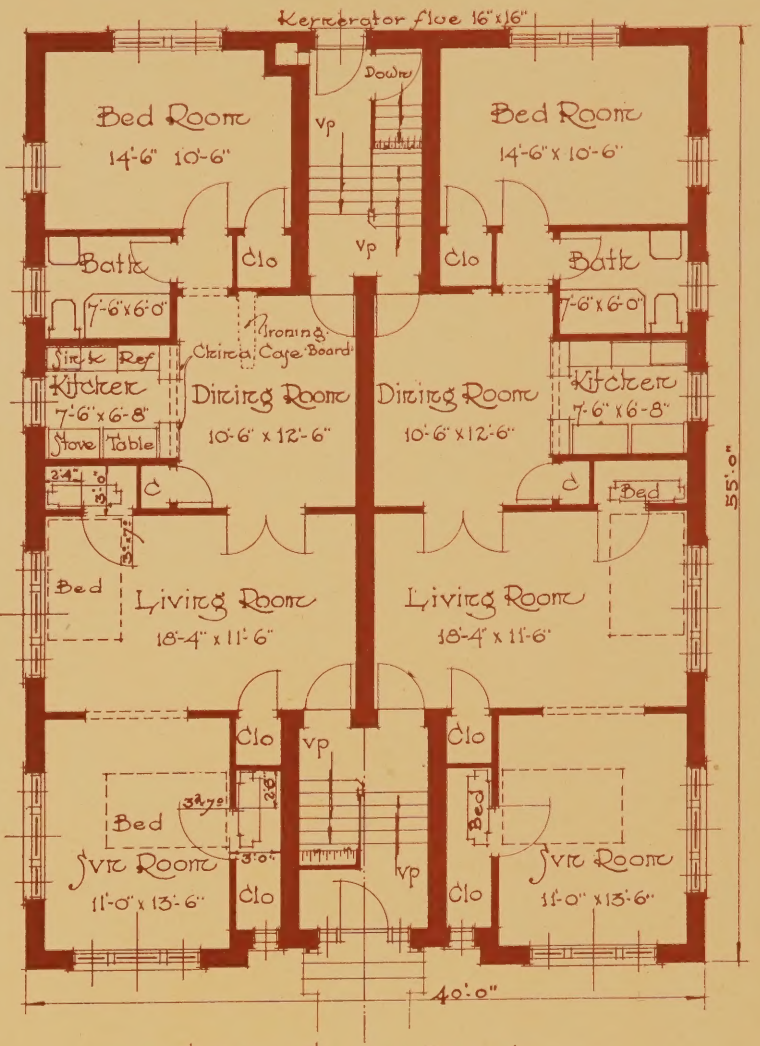


First Floor Plan

Second & Third Similar

F. 203.

F. 203. Two apartments to the floor, of four rooms and breakfast room each. Possible to build on a 40'-0" inside lot. The *Murphy Bed,* dropping directly in front of the window, converts the dining room into a bed room at night. Note position of refrigerator—iced from rear stairs.



First Floor Plan

Second & Third Floor Similar

F. 205.

F. 205. About the same area as **F. 203.** Each apartment has a three-bed room efficiency, as the *Murphy Bed* converts both living room and sun room into bed rooms at night. The dining room-kitchen arrangement affords an appreciable economy in building depth.

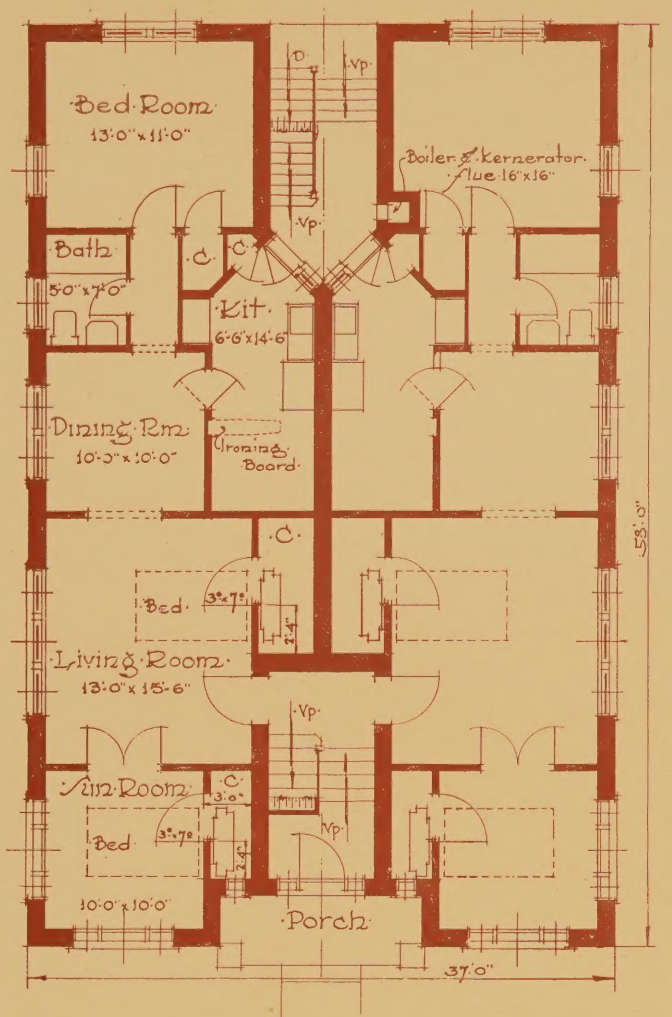
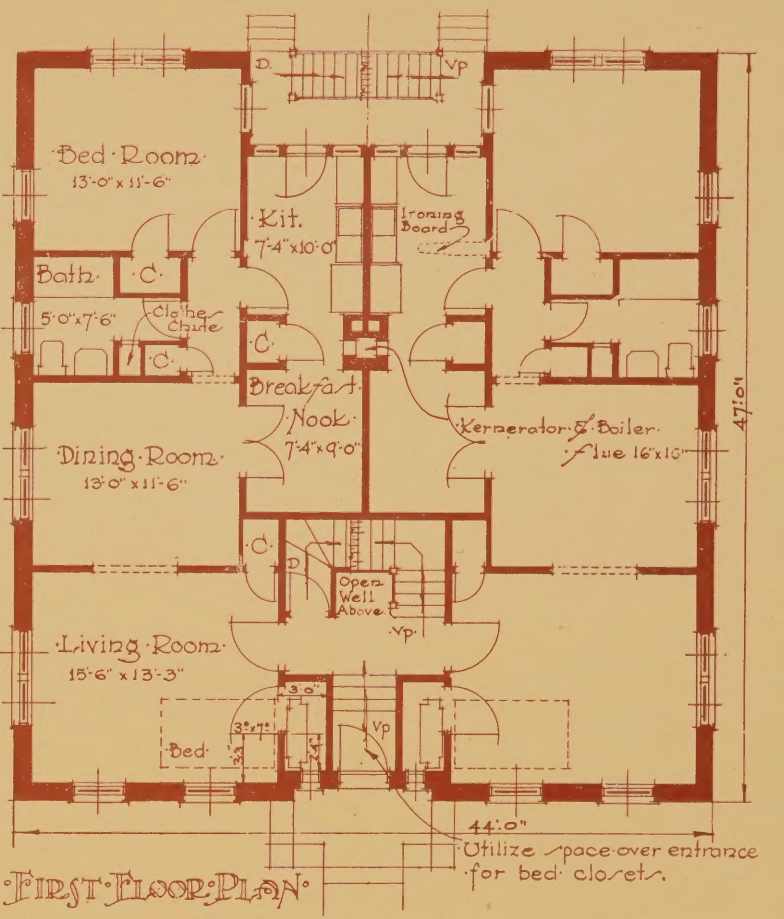
AVERY LIBRARY
COLUMBIA UNIVERSITY



FIRST FLOOR PLAN
Second & Third Similar

F-218

F. 218. Five rooms with seven-room efficiency. Note compact dining room. The sun room and also the living room — at night — are readily converted into desirable sleeping rooms by means of the *Murphy Bed*.



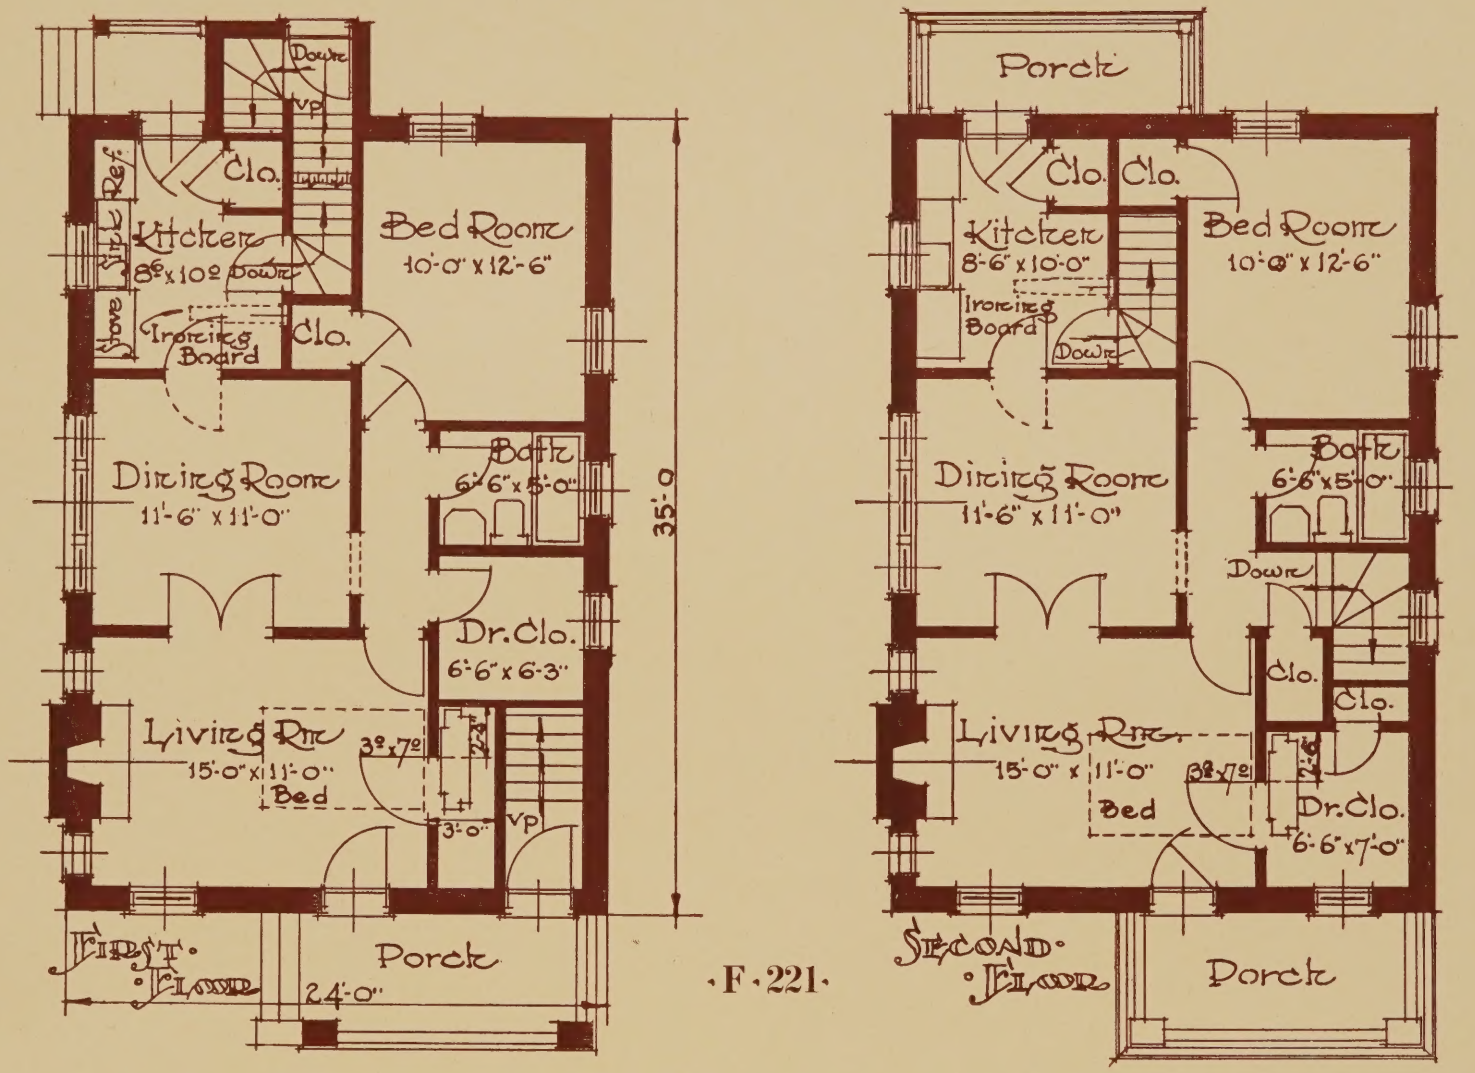
FIRST FLOOR PLAN
Second & Third Similar

F-208

F. 208. Four rooms with a five-room efficiency. The position of the *Murphy Bed* in each living room assures maximum ventilation at night. Note three-way ventilation for rear bed room. The *Kernerator Flue*, conveniently located, solves the garbage problem.

MURPHY DOOR BED CO.
ST. LOUIS
Kansas City Dallas
Houston

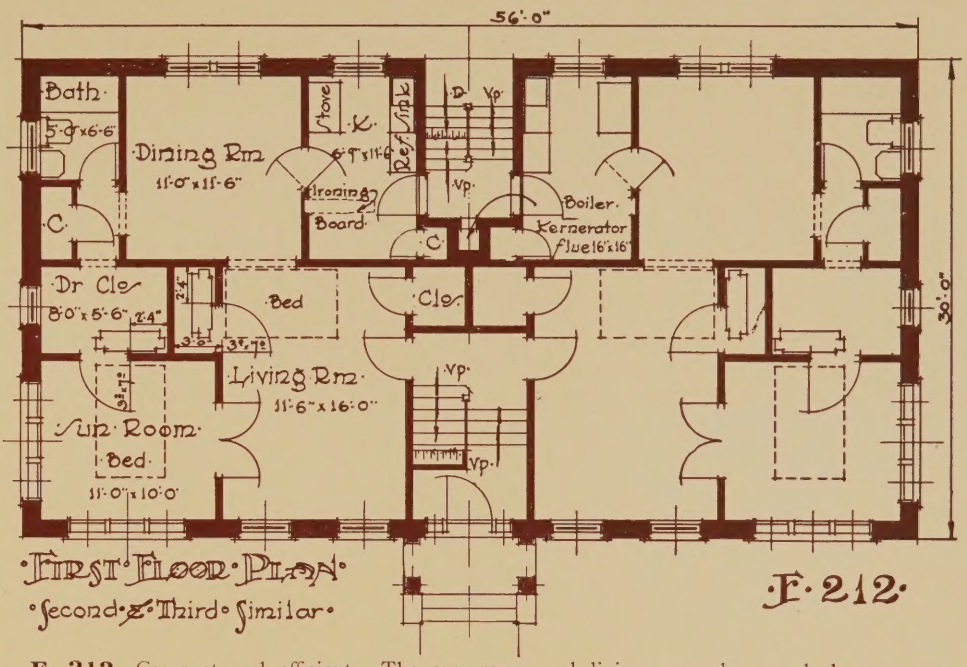
AVERY LIBRARY
COLUMBIA UNIVERSITY



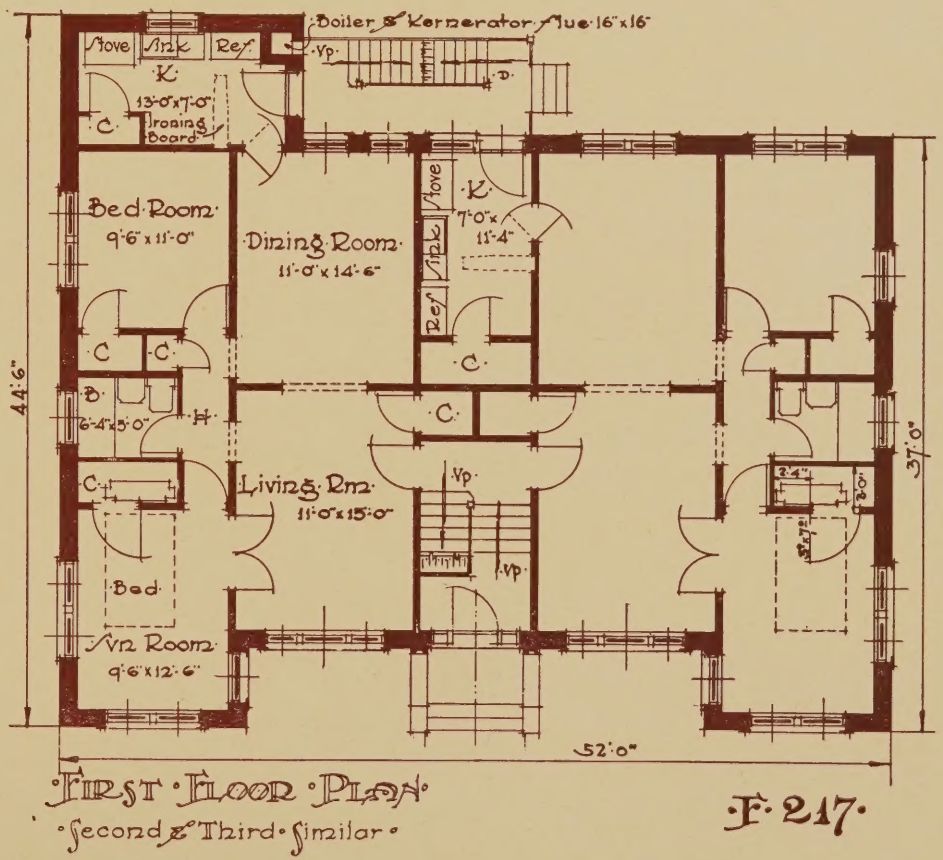
F. 221. A two-family apartment, or duplex. Arranged so both tenants can have individual entrances, also heating plants. The *Murphy Bed* converts each living room into another bed room at night. The dressing closet accommodates necessary bed room furniture.

MURPHY DOOR BED CO.
ST. LOUIS
Kansas City Dallas
Houston

AVERY LIBRARY
COLUMBIA UNIVERSITY



F. 212. Compact and efficient. The sun room and living room become bed rooms at night. The large dressing closet is ample for necessary bed room furniture. Just think. a home where the beds require floor space only when needed. This is possible by the efficient use of the *Murphy Bed.*



F. 217. In a building of this minimum width, the kitchen locations have made possible a desirable width in dining rooms. A sun room replaces the ordinary bed room—made possible by the *Murphy Bed.*

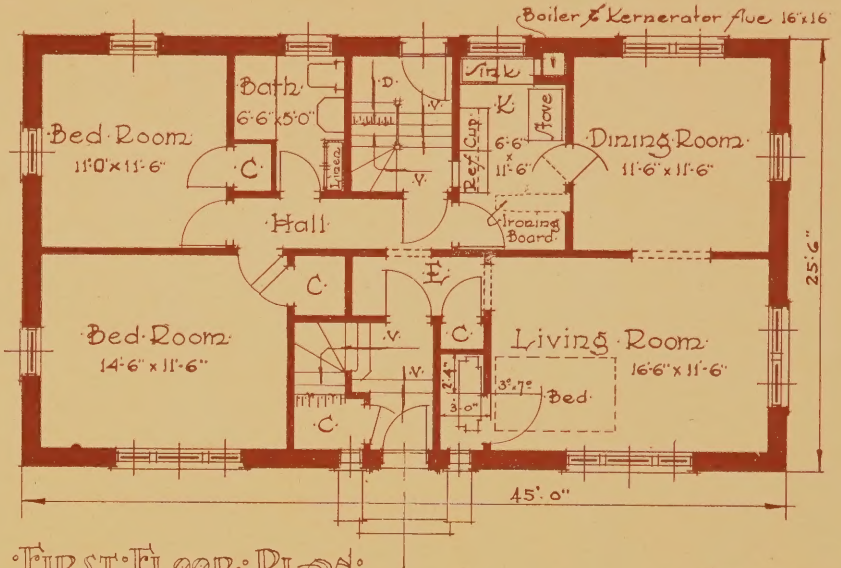
FIRST FLOOR PLAN
Second & Third Similar

F-223

F. 223. A suggestion for a two or three apartment building. The *Murphy Bed* in both living room and dining room affords additional sleeping rooms at night. An economical plan, but a truly efficient one.



FIRST FLOOR PLAN
Second & Third Similar

F-224

F. 224. Shallow building of two or three apartments. The room arrangement is convenient and affords splendid ventilation. Five rooms, but equal to most six-room suites. The *Murphy Bed* in the living room has made this possible. The *Kernerator Flue,* conveniently located in the kitchen, eliminates the necessity of a garbage or waste pail on rear stairs. Here all garbage, waste and trash is deposited, dropping to *Kernerator* in basement where it is consumed by fire.

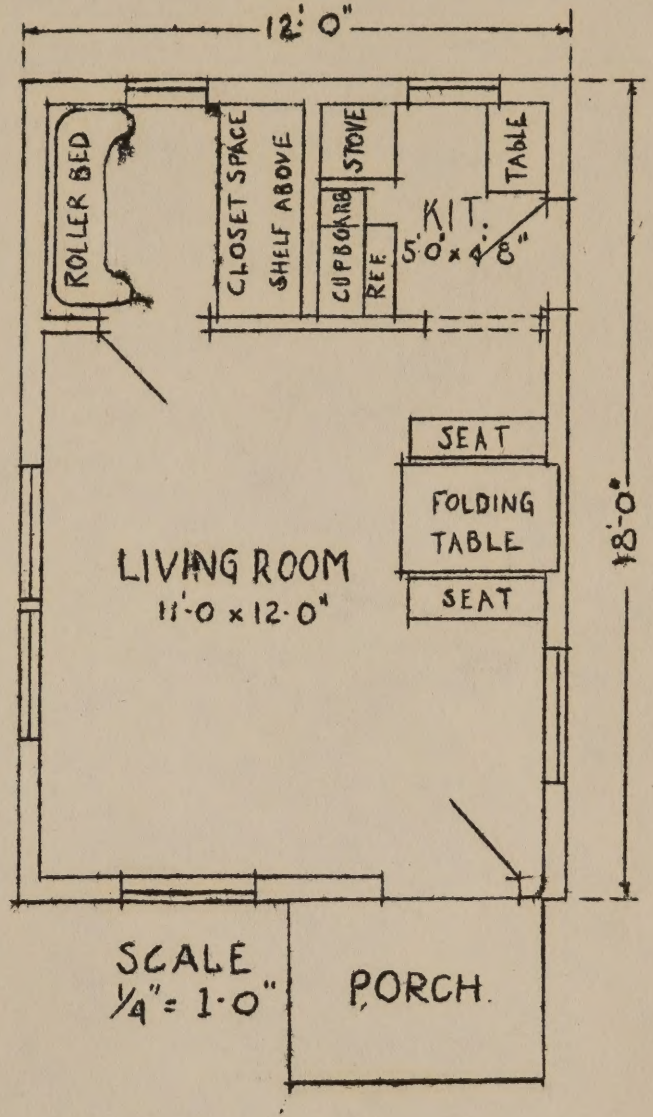
TOURIST CABIN



"Money-maker" is it's name!

It is small, but look how much living space you have!

The Murphy roller bed is out of the way during the day, yet at night it gives you honest comfort. It occupies only 9 sq. ft. of floor space and is in the closet out of the way.

The ordinary bed requires 35 sq. ft. of floor space and is out in the room where you neither want nor need it during the day. More important than the saving of space is the fact that the bed being out of the room changes the character of the whole cabin.

You could reduce the length of the building to 16 feet and still have a better and more desirable cottage than a larger one with a bed standing out on the floor.

The Murphy folding table folds into or against the wall when not in use.

The kitchen is convenient!

This cottage is more profitable because it will hold guests longer and bring them back oftener!

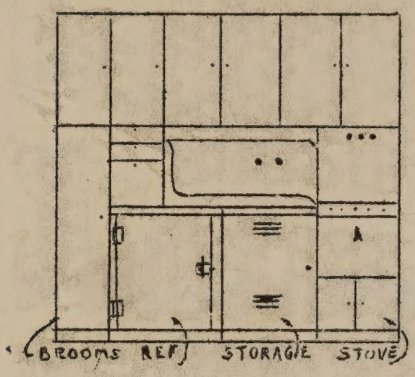
SUPER COMFORT

IN ONLY 680 SQ.FT.

What a Big difference between this home and the ordinary one about the same size! Here are so many useful and desirable features that to see them is to want them. To live in this house is paradise, compared to living in one the same size without these Murphy features.



MURPHY ALL PORCELAIN KITCHEN

SCALE 1/8" = 1'-0"

From a sales standpoint, the Murphy equipment is worth twice what it cost because it immediately creates an intense desire for ownership.

The porcelain kitchen is new and beautiful beyond words. The Murphy bed adds the efficiency of another bed room without the cost of building, furnishing, heating, lighting, or caring for it! The saving in construction cost alone by using the Murphy bed and Murphy kitchen more than pays for all eight listed Murphy features!

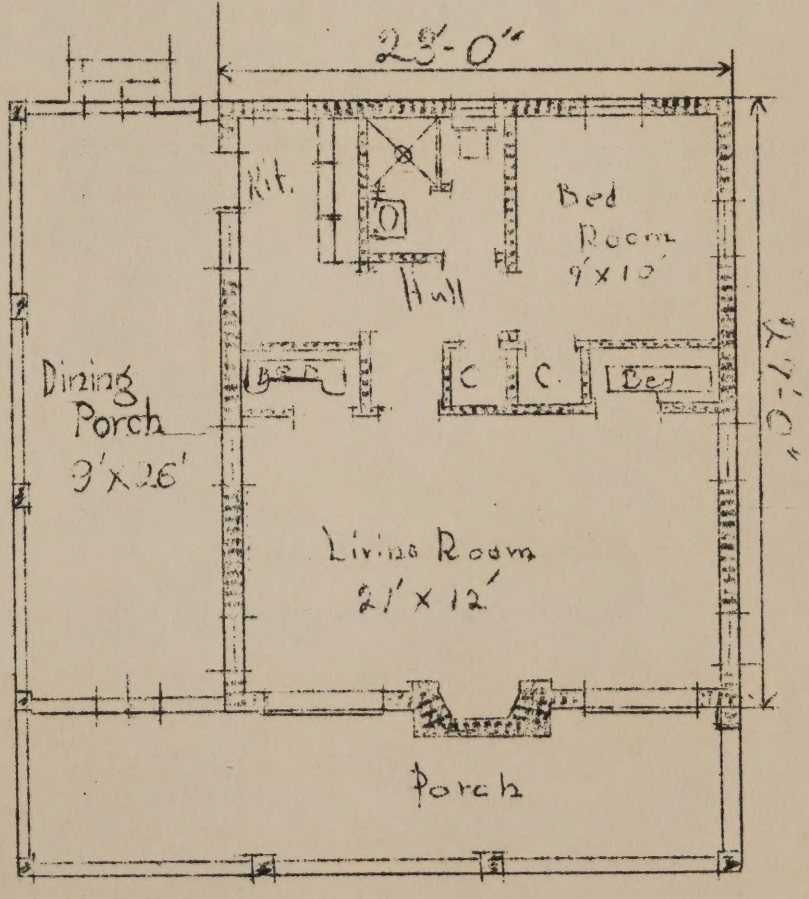
Summer or winter,
Rain or shine -
Here's a cottage
Just sublime!

Some poetry!
But what a peach of a home for so little money.

Eight people comfortably cared for at night. The two Murphy beds mean two extra bed rooms that you don't have to build or furnish!

The Murphy porcelain kitchen is convenient to the dining porch in summer and living room in winter.

The Bennett Boxed Fireplace will heat the house with less than half the fuel used by the ordinary fireplace.



One of a series of
Summer Cottage Suggestions.

A big living room, a lovely sunroom (or nursery) are the attractive features of this small bungalow.

Plenty of closet space, more than you ordinarily find in so small a home.

The Murphy Kitchen saves work and floor space. Provides ample storage.

Out goes the heated air through the Murphy Ventilating Fan. In comes packages through the Lock-A-Pak, even when you are not at home. In the front door the Dorgril is a protection. The mail box and illuminated house number are real blessings. The Bennett Economy Fireplace saves half the fuel -- gives more heat and never smokes. Your two Murphy beds give you two bedrooms at night which you have not had to build or furnish! Think of the saving!

Your Murphy Porcelain Kitchen equipment has saved enough space to almost pay for itself, - to say nothing of its new and added appeal.

How can homeseekers resist a house that has so many attractive conveniences? The answer is - THEY DON'T!

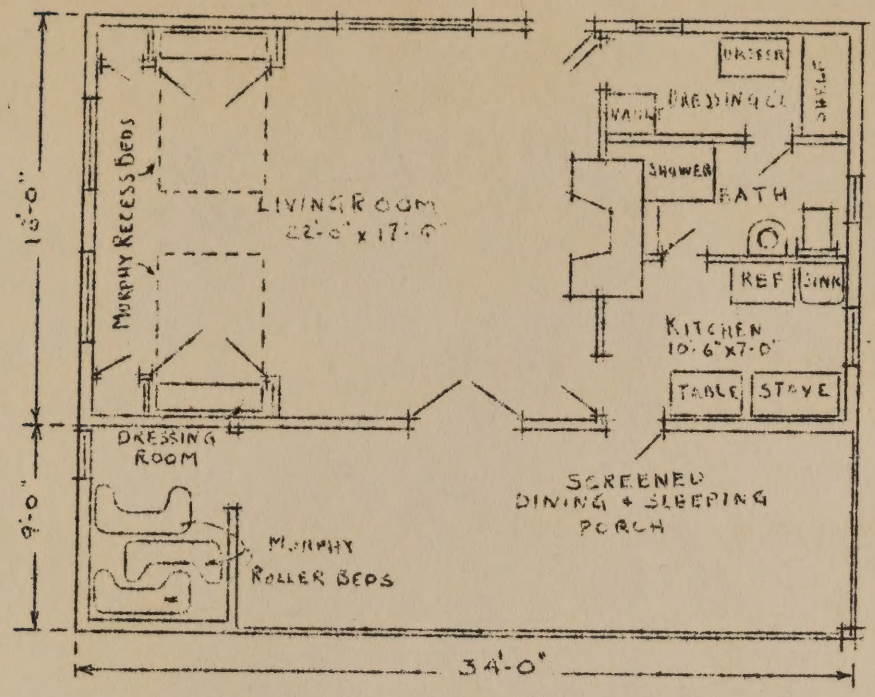
THE BUNK HOUSE



REAL SLEEPING COMFORT FOR TWO TO TEN PEOPLE

Notice how you can separate the husbands and wives;
- how the occupants of each sleeping room can reach the bath without passing through the other sleeping room.
- how all the beds could be used in the living room in bad weather.
- how you have plenty of dressing room and closet space.
- how the roller bed closet makes a good dressing room for early morning use before the beds are put away.
- and look at the size of the big living room! The two Murphy recess beds are off the floor and out of the way during the day.

MURPHY COMFORTS

- Of course, the comfortable, sturdy, easily-operated, space-saving Murphy Beds.
- The Steel Clothes Vault.
- The Murphy porcelain work-saving kitchen equipment.
- The heat-giving, non-smoking Bennett Bonded Fireplace.
